

# Dental Assisting - Registered, Certificate of Achievement

**Banner Code:** 1\_CT\_DENA

**Control Number:** 22420

**Financial Aid Eligible**

Dental assisting is a challenging field requiring skills in chairside assisting, which includes manual dexterity, dental radiology, preventive therapy, patient management, receptionist duties, expanded functions and office management.

Qualified dental assistants find employment opportunities in a variety of settings such as private dental offices, specialty practices, federal or state dental programs and dental schools.

The Dental Assisting program is approved by:

The State of California Department of Consumer Affairs, Dental Board of California  
2005 Evergreen Street, Suite 1550  
Sacramento, CA 95815

RDA functions are taught to laboratory competency and clinical competency where applicable. A list of laboratory and clinical competencies are available upon request.

Program application process is accomplished by taking program prerequisite, Allied Health A010 or Allied Health A012. This short-term course is mandatory for all prospective program applicants. See current class schedule for specific course meeting times. The Dental Assisting Registered program starts only in the fall semester of every school year.

This program is a sequential program. All fall semester courses must be taken concurrently in the fall semester. All spring semester courses must be taken concurrently in the spring semester.

## Program Outcome

The outcome of the program is to meet the needs of the local health care community by preparing students for employment as a professional and competent registered dental assistant.
